

MicroLA C++ Standard Feature Progression

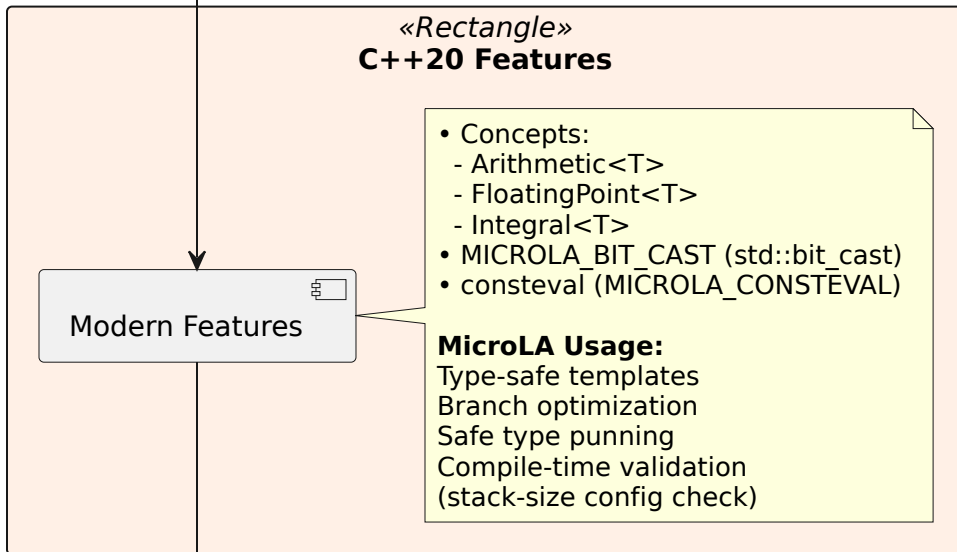

Automatic Feature Detection:

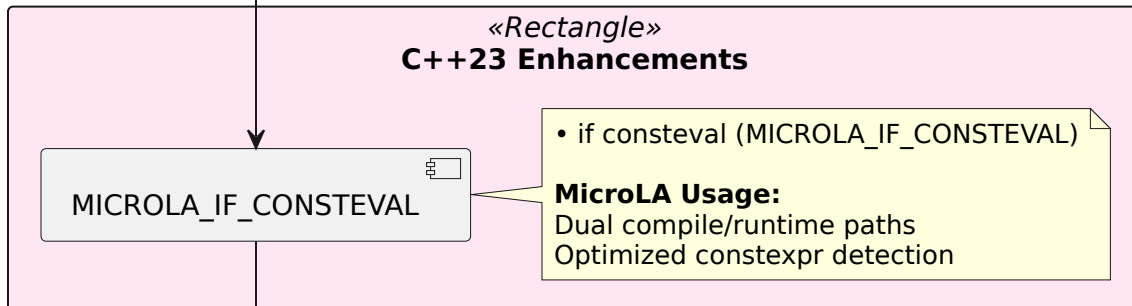

C++17 is the required baseline.
Feature detection starts at C++20:
#if __cplusplus >= 202002L // C++20
#if __cplusplus >= 202302L // C++23
#if __cplusplus >= 202600L // C++26

Features automatically enabled
based on compiler __cplusplus value
